## REVERSIBLE FLAIL

(light type)

### STANDARD EQUIPMENT

- three-point hitch
- rear rubber protection
- front protection with galvanised strips
- stabiliser foot
- gearbox with through shaft with internal double freewheel
- cardan shaft
- cardan protection boot
- rotor with smooth hammers
- belt transmission
- rear height-adjustable roller with scraper
- internal counterframe
- series of internal counter-elements
- double lateral hydraulic displacement
- special powder or liquid painting (primer and enamel)

The TLBR Flail is a piece of equipment used for the shredding of grass and small shoots. It has double attachment, front and rear with lateral movement. This reversibility allows maximisation of its performance.

Mod.			 Kg	 (Hp-kw) *	 (g/min.)	 D. Rotor		
<b>TLBR-120</b>	1340/850/940	1240	380	20/30-15/22	540	12	108	2
<b>TLBR-130</b>	1440/850/940	1340	390	20/30-15/22	540	13	108	2
<b>TLBR-140</b>	1540/850/940	1440	400	20/30-15/22	540	14	108	3
<b>TLBR-150</b>	1640/850/940	1540	410	20/30-15/22	540	15	108	3
<b>TLBR-160</b>	1740/850/940	1640	420	20/30-15/22	540	16	108	3

\* the horsepower shown are indicative and express the power required by the flail for its operation.

### ACCESSORIES ON REQUEST

1. Pair of side skids
2. Rear galvanised harpoons
3. Front rubber protection on the strips

The technical data, illustrations and features are indicative and do not commit the manufacturer (put at the end of the page)
